Template Name 60.5422a(a) Semiannual Report (Spreadsheet Template)
CitationID 60.5422a(a)
Template Version v1.00
Last Updated Date 5/12/2017

40 CFR Part 60, Subpart OOOOa Standards of Performance for Crude Oil and Natural Gas Facilities for which Construction Spreadsheet Template

Instructions for Spreadsheet Template

Purpose:

This spreadsheet template was designed by the U.S. EPA to facilitate semiannual reporting for Onshore Natural Gas Process if you have already submitted a 60.5422a(b) Initial Semiannual Report for this facility; if you are submitting the first Semi Report template for upload into CEDRI. CEDRI is accessed through the EPA's Central Data Exchange (<https://cdx.epa.gov>).

Electronic reporting:

Electronic submission of initial semiannual excess emissions report through the EPA's Compliance and Emissions Data Report. The initial semiannual reporting requirements included in this report are found in §60.5422a.

The CEDRI spreadsheet template upload feature allows you to submit data in a single report for a single facility or multiple, labeled "Facility Information" in this Excel workbook. Each row in the "Facility Information" worksheet includes the data for each facility. Provide the Semiannual Report Information for each facility in the "Semiannual Report" worksheet.

If necessary, you may reference a file attachment in the last column of the "Facility Information" worksheet within the application included for each facility record.

The spreadsheet must be uploaded into CEDRI as a single ZIP file, which must include this worksheet and any related attachments.

Note: If you are uploading file attachments for your report, the uploaded files may be in any format (e.g., zip, docx, PDF). If you upload multiple files, include them all in a single ZIP file to the master ZIP file that will be uploaded into CEDRI.

Once all of the data has been entered in the worksheet, combine this Excel workbook and any attachment files (including any attachments) into a single ZIP file. An owner or operator must include the information specified in paragraphs (c)(1) and (2) of this section in all semiannual reports.

Facility Information worksheet

Facility Name, Address of Processing Plant, Address 2, City, County, State Abbreviation, Zip Code, Beginning Date of reporting
